PROFIT AFTER TAX	3.70	5.68	5.82	4.90

.2.

Mr. Ashok Sharma – Managing Director of the Company said:

I am pleased to announce the financial results for the quarter and half year ended 30th September 2019. The performance of the Company has been steadily improving due to good monsoon, conducive policy environment, multiple States' contribution, better asset utilisation, cost re-engineering, successful setting up of satellite plants, and internal efficiencies and we expect to achieve our growth targets.

The Company continued to build on value added services, Agronomy, carbon footprint and customer support initiatives successfully.

The Joint venture with Israel based Top Greenhouses has started building strong pipeline for business in multiple segments including customised solutions for marginal farmers and we are now in a position to provide better technology across spectrum.

The Company's presence will lead to penetration of the technology in remote corners of rural India and help enhance the productivity for many more farmers.

We would continue our focus on operational efficiencies to maximise stakeholders' value.

About Mahindra EPC Irrigation Ltd.

MEIL is one of the pioneering companies in India in the micro-irrigation space and one of the major players in organized segment. It currently operates through a wide network of dealers and sells agriculture irrigation systems, landscape irrigation systems, industrial pipes, pumps and protected cultivation solutions. The products from MEIL are known for their high quality and technology. MEIL has grown to become one of the top five companies in India in the micro-irrigation space.
